

**PLAKA – PLASTIC SLEEVE**

Plastic spacer sleeves for formwork tie rods  
REF 04.01.10 - Version V01 - 13/08/2020

**Description**

Formwork spacer tubes in waterproof plastic.

These tubes have a rough surface on the outside for fastening to the concrete, and smooth on the inside through which passes the tie rod.

The lengths of 2.00 m is easily cut to length with a circular saw or hand saw.

**Application fields**

| Tie rod Ø (mm) | Tube Ø <sub>i</sub> /Ø <sub>e</sub> (mm) |
|----------------|--|
| 15.1           | 22/26                                    |
| 20.0           | 32/38                                    |
| 26.5           | 40/46                                    |

For passage of the tie rods through concrete walls.

If any waterproofing, or sealing from fire, noise or gas is required, use other systems such as fiber concrete tubes, "Colmatube" ...
